Skype: galeraguy

# FOREWORD

Hi John,

It's easy to look at month-end reports and see how your campaign performed.

But what about the opportunities you're missing? If you knew what to do to identify what's working and what isn't, improve your landing page design and convert more traffic into leads or sales... Wouldn't it make sense to do it?

This landing page report measures everything that matters to ensure you get the best return on investment (ROI) on every click you send to your landing pages.

In other words, it's all you need to make more strategic decisions to grow your business.

You can use this report to quickly and efficiently evaluate your landing page strengths and weaknesses—in dozens of different ways.

The prioritized recommendations you'll find here are easy to read and understand, so you can make smart decisions about where to allocate your precious time and resources to gain a competitive edge and a better return on your advertising budget.

Stop guessing about what's wrong with your landing pages—and read this comprehensive, jargon-free landing page report instead.

## **Report structure**

This report has been divided into different categories—from user experience and conversion optimization to page performance and security.

The good news is we've compiled the most important and actionable items you need to help your business succeed online. Explanations are detailed but easy to read and understand.

**If you have any questions about this report or how to speed up your site and get better results, just contact us to schedule an online consultation.**

Thanks

Les Edwards

Here are the scores for your site:

# HEINCONSTRUCTIONWYOMING.COM

	User Experience	71/100	FAIR
	Conversion Optimization	52/100	POOR
	Content / Copy	100/100	GREAT
	Performance & Security	100/100	GREAT
	Thank You Page Optimization	75/100	GOOD
	Tracking & Reporting	27/100	POOR
	Legal	78/100	GOOD

## Impact Rating:

Our audit factors range from high impact to low impact based on how much they can influence the way your website converts visitors into leads and customers, performance, security and your rankings in search engine results.

Apply the recommendations below to help your site look nicer, run faster, rank better and start converting more visitors into customers.

# User Experience

YOUR SCORE **71 / 100**

User experience and design is a strategic process of enhancing the visual elements, usability, and accessibility of a page to ensure it is user-friendly and intuitive to use across all devices.

## Professional Web Design

 **Passed**  **High Impact**

Your landing page is often your prospect's first impression of your business. Your landing page should look professional, be easy to use, build trust, and effectively convert visitors into leads or customers.

### **Learn More**

Today's online visitor is savvy and will judge your whole business by what he or she sees in the first 3 seconds of visiting your landing page. Make your first impression count!

## Professional Digital Branding

 **Passed**  **Medium Impact**

Your landing page brand is comprised of your logo, color scheme, images, fonts, and other visual elements on your landing page. The landing page branding should complement your website and offline branding.

### **Learn More**

Creating a brand identity allows prospects and customers to associate themselves with your company both online and offline. By creating a well-designed brand identity, you can develop customer loyalty and a trusted association with your products or services.

## Mobile Friendly

 **Passed**  **High Impact**

On average, visitors now spend more than half of their time online on a mobile device. That means mobile-friendly landing pages should be a critical part of any online advertising campaign.

### **Learn More**

You can have Google test your landing page by using their [Mobile-Friendly Test Tool](#)

## **Your Mobile Friendly Results**

### Blocked Resources

- [https://www.vcita.com/widgets/active\\_engage/configuration?id=atnoxogjj57q8wz5&callback=jQuery1111024873096914961934\\_1565341335113&\\_=1565341335114](https://www.vcita.com/widgets/active_engage/configuration?id=atnoxogjj57q8wz5&callback=jQuery1111024873096914961934_1565341335113&_=1565341335114)

## **Relevant Use of Images**

 **Passed**  **Medium Impact**

High-quality, relevant images can increase user engagement and boost the conversions on your landing page. Most visitors will not become a lead or customer, so use images to build brand awareness for your products or services.

### **Learn More**

Images are easier to consume than text. This is one of the reasons why a majority of visitors prefer them.

## **Relevant Use of Video**

 **Failed**  **Medium Impact**

High-quality, relevant videos can increase user engagement, and keep users longer on your landing page. Studies have shown videos to significantly boost the conversions on landing pages.

### **Recommended Action**

Use high quality, relevant videos that reflect your brand, product, and services to increase user engagement and boost the conversions on your landing page.

### **Learn More**

Videos are easier to consume than text and even images. This is one of the reasons why a majority of visitors prefer to consume videos than reading a long landing page.

## Proper Use of Whitespace

✔ Passed  Medium Impact

Both your overall landing page design and your copy should be simple, clear, and uncluttered. As a result, your visitors should be able to understand in a split second what your offer is, and how it benefits them. In turn, you'll enjoy higher conversions.

### ! Learn More

Check out this resource on [45 Landing Page Optimization Tips To Help You Decide What to Test](#) for more info.

## No Off-page Links

✘ Failed  High Impact

Your page should be focused on getting the visitor to take the desired action (such as calling you, filling a form, or ordering a product). Any other links will just distract from that goal.

### 💡 Recommended Action

Whenever possible, remove all off-page navigation links so that the only way to exit the page (other than the back button) is via your call to action link or button.

### ! Learn More

Learn more about landing page best practices by checking out this resource from [HubSpot](#).

# Conversion Optimization

YOUR  
SCORE

52 / 100

Conversion rate optimization (CRO) is the systematic process of increasing the percentage of landing page visitors who take a desired action – be that filling out a form, becoming customers, etc.

## Noticeable Phone No

✔ Passed  High Impact

Your landing page should display your phone number in a prominent place—for example, in the top right corner, in the footer or in the mobile header—to make it easy for visitors to contact you.

### ! Learn More

Many people don't have the patience to search for your phone number anymore (especially if they're on a mobile device). You could be losing a lot of potential customers right now by making it hard to contact you.

## Primary Call To Action (CTA)

✔ Passed  High Impact

A call-to-action asks visitors to take a specific action on your landing page—buy, call us, chat with us, fill out this form etc? Every landing page needs at least one effective CTA in a noticeable place.

### ! Learn More

Common calls to action include:

- Buy / Order Now
- Subscribe
- Sign Up
- Start Chat
- Click to Call

## Secondary Call To Actions (CTA)

 **Failed**  **Medium Impact**

Secondary CTAs help you engage visitors who are not interested in your primary CTA, or who may need additional information before taking the desired action.

### **Recommended Action**

Implement complementary calls to action to engage your visitors and increase the chances of them taking some kind of action before they leave your landing page.

### **Learn More**

Learn more about secondary calls to action from this resource at [HubSpot](#).

## Lead Capture Forms

 **Passed**  **High Impact**

An intuitive form on your landing page will help you capture the visitors contact info, or at the very least, a name, and email address for visitors who aren't interested in calling you or being called.

### **Learn More**

It's important to have your form in an easy to find place—usually before a visitor has to scroll. Keep the number of fields to a minimum, and use field validations to make sure your visitors' information is submitted properly.

## Relevant Trust Factors

 **Failed**  **High Impact**

Trust factors— such as awards, affiliations, certifications, and guarantees—help position your business as knowledgeable experts, who can be trusted and relied on.

### **Recommended Action**

Prominently display awards, affiliations, certifications, guarantees and other things that can build trust in the eyes of the visitor.

### **Learn More**

Trust factors are sometimes called "proof points" because they prove to your visitor that you know what you're talking about and can be trusted with their money.

## Testimonials / Reviews

 Failed  High Impact

Reviews and testimonials help convince people to buy, because they are honest recommendations from people that your visitors trust the most—other customers.

### Recommended Action

Start collecting testimonials and reviews from customers—for example with Google or Yelp—and then prominently add them onto your landing page.

### Learn More

According to a Bright Local study, 84% of people trust online reviews as much as a personal recommendation. 74% of consumers surveyed also said that positive reviews make them trust a local business more.

## Online Chat

 Failed  High Impact

A chat script can help to capture customers by answering their questions quickly; it can also drive more leads by reaching out to prospects before they leave your landing page. Not every visitor wants to call you or is ready to provide you with their contact info.

### Recommended Action

Work with your web designer to implement a chat script like [Olark.com](https://www.olark.com/).

### Learn More

Live chat is cost effective and can be set up in under an hour or two. You can check out [this resource](#) on the benefits of implementing live chat on your landing page.

## Unique Selling Proposition (USP)

✔ Passed  Medium Impact

Your USP clearly describes how your product or service solves your customer's needs or desires better than the competition. It should be placed prominently at the top of your landing page.

### ! Learn More

Here's an example of a USP formula to get you started: We are a \_\_\_\_\_ who help \_\_\_\_\_ with \_\_\_\_\_. Unlike our competitors, \_\_\_\_\_.

## Use Scarcity Techniques

✔ Passed  High Impact

If you let your visitors leave your landing page without taking action, it's unlikely that they'll return. That's why you want to create a sense of urgency, which will boost your conversion rate.

### ! Learn More

Learn more about creating urgency on your landing page by reading [this article](#).

## Exit Popups

✘ Failed  Medium Impact

When someone is exiting your landing page without taking any action, there's a good chance that they won't ever return. That's why you'll want to install an exit popup, which gives them a last chance offer.

### 💡 Recommended Action

Talk to your copywriter and marketing team about what sort of "last chance" offer would work best for your audience. This may take the form of:

- A discount coupon.
- A free product offer
- A free service offer such as a quick consult.

...or a similar offer. This offer should be even better than the one offered on the landing page, as it may be your last chance to convert the visitor.

Then talk to your web developer about how to install and configure an exit popup script on your landing page.

### **Learn More**

Learn more about creating effective exit popups [here](#).

# Content / Copy

YOUR SCORE **100 / 100**

To dominate a crowded market your landing page content needs to be well written and formatted so that it is easy to read, and focused on your ideal target audience.

## Page Copy Connects w/ Ad Copy

✔ Passed  High Impact

The ad copy that leads to your landing page and the landing page copy itself should have a consistent message and theme. If these two messages don't connect, then your visitor is going to get confused and leave.

### ! Learn More

Learn more about creating high-converting copy [here](#).

## Captivating Headlines

✔ Passed  High Impact

The job of any headline is to captivate your reader and get their attention. If your headline fails to do this, your reader will simply click away. And you'll lose an opportunity to generate the lead or sale.

### ! Learn More

To learn more about writing better headlines, [click here](#). Ask your current web agency if they offer this service or can refer someone to you.

## Relevant Headlines

✔ Passed  High Impact

Often, one of the first things a new visitor sees on your landing page is a headline. You'll want to make sure your headlines are relevant and speak directly to your ideal customer. If it isn't, they're going to click away without reading anything else.

### ! Learn More

You may decide to hire a professional ghostwriter or copywriter to help you create content that's easy to scan. Ask your current web agency if they offer this service or can refer someone to you.

## Compelling Messaging / Calls to Action

✔ Passed  High Impact

If you fail to provide a strong call to action, your prospects are simply going to click away without taking action. A good call to action tells visitors exactly what you want them to do next. This boosts your opt-ins, generates more leads, and customers.

### ! Learn More

Learn more about how to create a compelling, powerful call to action [here](#).

## Easily Readable

✔ Passed  Medium Impact

If the content is difficult to read, your visitors aren't going to read it. In most cases, they'll just click away and go to your competitor instead. That's why you'll want to make sure your landing page is easy to read.

### ! Learn More

Learn more about how to choose the right font plus other tips [here](#).

## Consistent Formatting

✔ Passed  Medium Impact

Consistent formatting is important because it makes your content more readable and easier-to-understand. Inconsistent formatting looks sloppy and may have some readers clicking away before they even learn about how you can help them.

### ! Learn More

Ask your current web agency how they can help you with formatting your landing page content.

## Easy to Scan

✔ Passed  Medium Impact

While we'd love for every visitor to read every word on our landing page, the truth is most won't. Make sure they can extract the highlights of your content just by scanning. This helps engage visitors, keeps them on your page longer, and read more of it.

### ! Learn More

Ask your current web agency how they can help.

# Performance & Security

YOUR SCORE **100 / 100**

Secure landing pages build trust. Slow loading landing pages are a killer! Increasing your page speed can improve visitor experience and increase conversion rates.

## HTTPS

✔ Passed  High Impact

SSL certificates allow visitors to have an encrypted connection to your webpage. It also gives visitors confidence that your landing page is trustworthy and secure.

### ! Learn More

SSL is important because the info you send on a web page is passed across multiple devices on different networks before it gets to the destination server. If things like credit card numbers, usernames and passwords, and other sensitive information aren't encrypted with SSL, hackers and malicious scripts can steal that data.

### ! HTTPS Test Results

✔ We've identified that the site is running on <https://www.heinconstructionwyoming.com>.

## Google Page Speed

✔ Passed  High Impact

Every second counts when a visitor is waiting for your landing page to load. Slow page speeds lead to poor user experience. Stats show that your conversions drop for every second longer your visitor has to wait.

### ! Learn More

Check out Google's [PageSpeed Insights Tool](#) for more info. Other popular page performance testing tools you can use are [GTmetrix](#) and [Pingdom](#).

### ! Page Speed Results

 DESKTOP SPEED	<b>98 / 100</b>	Nearly half of all visitors will leave a desktop site if the page doesn't load within 3 seconds.
--	-----------------	--

## 🕒 Lab Data

First Contentful Paint	0.5 s ✓	First Meaningful Paint	0.5 s ✓
Speed Index	1.1 s ✓	Time to Interactive	1.5 s ✓

1 Remove unused CSS	0.75 s ⚠️
2 Defer offscreen images	0.6 s ⚠️
3 Enable text compression	0.3 s ⚠️

[Get detailed mobile page speed recommendations.](#)

# Thank You Page Optimization

YOUR  
SCORE

75 / 100

Most businesses underutilize their thank you page. Take advantage of the momentum you've already built and engage visitors further, to generate more post conversions.

## Say Thank You

✔ Passed  Medium Impact

Your thank you page is the beginning of your relationship with your new lead or customer. That's why you want to start nurturing this lead on the thank you page, which begins by saying thank you.

### ! Learn More

See effective [thank-you page examples here](#).

## Confirm the Transaction

✔ Passed  Medium Impact

Once your visitor has completed the desired action, you want to create a good user experience by confirming the transaction has been successfully completed, along with letting them know what the next steps are.

### ! Learn More

See effective thank-you page examples [here](#).

## Offer an Upsell or Cross-sell

✔ Passed  Medium Impact

When your new lead or customer lands on your thank-you page, they're already in a take action mood. That's why the thank-you page is a great place to pitch a related upsell or cross-sell product or service.

### ! Learn More

Learn more [here](#).

## Ask for Referrals

✔ Passed  Medium Impact

Your lead or customer is in a take-action frame of mind when they reach your thank you page, which makes it a good place to ask them to take a secondary action like asking for referrals.

### ! Learn More

Learn more about getting your visitors to take an additional action [here](#).

## Social Share Buttons

✔ Passed  Medium Impact

Your new lead or customer is excited about your business, so it's a great time to ask them to share their excitement with others on social media. This also serves to psychologically reinforce the person's decision to do business with your company.

### ! Learn More

Learn more about getting your visitors to take an additional action [here](#).

## Links to Popular Content

✔ Passed  Medium Impact

When your visitor takes action on your landing page, they do so because they believe that your offers can help them. You can reaffirm that by linking to your most popular content/resources from your thank you page.

### ! Learn More

Learn more by reading this resource on [Essential Elements of a High-Converting Thank You Pages](#).

## Surprise Freebie

✘ Failed  Medium Impact

Offering a surprise freebie on your thank you page will delight the lead or customer, which helps build a good relationship. This can help build brand loyalty as well.

### 💡 Recommended Action

Determine what type of freebie would both delight your lead or customer. Discuss with your sales team whether to make this a no-strings-attached freebie, or to require the lead to fill in a form (which can be used to segment the mailing list), call a telephone number, or take a similar action.

### **Learn More**

See examples of effective landing pages [here](#).

## **Get Feedback / Survey**

 **Failed**  **Medium Impact**

Gathering feedback on your thank-you page can help you get to know what your visitors want, what they think of your business, and how you can improve.

### **Recommended Action**

Talk to your marketing team about what type of information to include on your survey. Then talk to your web developer about how to integrate a survey or questionnaire on your thank-you page to easily collect visitor responses.

### **Learn More**

Learn more [here](#).

# Tracking & Reporting

YOUR  
SCORE

27 / 100

You can't measure what you don't track. If you can't measure it, you can't improve it. Use analytics to track and analyze visitor insights. Set goals to measure and optimize performance. Leverage them all together to drive growth and boost your revenue.

## Facebook(FB) Pixel

✘ Failed  Medium Impact

This code provided by FB goes on your landing page so you can show related ads on FB to people who have visited your landing page. It also tracks actions that can be used for optimizing your FB ads.

### Recommended Action

Ask your web designer to add your FB pixel onto your landing page. If you use WordPress you can use a plugin like [PixelYourSite](#) or [PixelCat](#). If you've added the FB pixel to your landing page you can troubleshoot the configuration using the [Facebook Pixel Helper Extension](#).

### Learn More

The FaceBook pixel is critical for any company using or planning to use Facebook for Advertising. You can learn more by visiting the [Facebook Business](#) resource page.

## Google Analytics / Tag Manager

✔ Passed  High Impact

Analytics help you better understand your visitors and customers to improve engagement, usability and drive sales. Google Analytics & Tag Manager are popular free service.

### Learn More

Visit the [Google Analytics](#) site or [Google Tag Manager](#) page to learn more about how it can help your business turn traffic data into actionable growth insights.

## Google / Bing Analytics Goals

✘ Failed  High Impact

### Recommended Action

If you're using Analytics, work with your developer or digital marketer to setup goals to measure key aspects of your online business. You can even set up a "Goal Funnels," which is the path to your goal. That way, you can see what part of the process isn't converting visitors.

### **Learn More**

Learn more about Google Goals and how to set them up [here](#).

## Heat Maps / Engagement Tracking

 **Failed**  **High Impact**

### **Recommended Action**

Use a tool like HotJar.com to start tracking how users are interacting with your landing pages.

### **Learn More**

Learn more about the benefits of heat maps and how to create them [here](#).

# Legal

YOUR  
SCORE

78 / 100

Protect your business by making sure your landing page is compliant with the national and international laws, rules, and regulations.

## Privacy Policy

✔ Passed  High Impact

Your privacy policy informs your visitors of what sort of info your landing page collects and how this info will be used. You need a privacy policy because in most cases it's legally required. Aside from that, a privacy policy builds trust with your visitors.

### ! Learn More

To learn more about what all is included in a typical privacy policy, check out [Nolo.com](https://www.nolo.com).

## Cookie Policy

✘ Failed  Medium Impact

A cookie policy tells your visitors how cookies are used on your landing page. If your business operates in the EU or EU citizens use your landing page, then a cookie policy is a legal requirement. For all others, it's a good idea to have this policy as it instills trust.

### 💡 Recommended Action

Consult with an attorney to create a cookie policy or use resources provided by services like <https://termsfeed.com/> and <https://www.iubenda.com/en>. We always recommend you consult with a lawyer whichever direction you take.

Then be sure a link to this policy appears at the bottom of each page of your landing page.

### ! Learn More

Learn more about what cookies are and how they're typically used at <http://www.whatarecookies.com>. You can also leverage done for you resources at <https://termsfeed.com> and <https://www.iubenda.com/en>.

## Terms & Conditions

✔ Passed  Medium Impact

A terms and conditions agreement is a legal document that outlines how visitors may use your landing page, and what happens if they abuse your it. For example, you can detail what happens to users who abuse your offer. This protects you legally in the event you need to take action against an abusive visitor.

### ! Learn More

To learn more about what all is included in a Terms & Condition agreement visit [Nolo.com](https://www.nolo.com).

## Copyright in Footer

✔ Passed  Medium Impact

Generally, you retain a copyright over your graphics and content from the moment you create them. This means that a copyright notice isn't absolutely mandatory. However, a notice makes it clear who owns the copyright, and it may potentially help you win damages if there is ever a lawsuit related to your copyrighted material.

### ! Learn More

Check out this resource to learn more about [how to create a proper copyright notice](#).

# Next Steps To A Successful Website

Address the action items in these tabs to help your site look nicer, rank better and start converting more visitors into customers.

Task	Recommended Action
<b>User Experience</b>	
<b>No Off-page Links</b>  High Impact	Whenever possible, remove all off-page navigation links so that the only way to exit the page (other than the back button) is via your call to action link or button.
<b>Relevant Use of Video</b>  Medium Impact	Use high quality, relevant videos that reflect your brand, product, and services to increase user engagement and boost the conversions on your landing page.
<b>Conversion Optimization</b>	
<b>Testimonials / Reviews</b>  High Impact	Start collecting testimonials and reviews from customers—for example with Google or Yelp—and then prominently add them onto your landing page.
<b>Relevant Trust Factors</b>  High Impact	Prominently display awards, affiliations, certifications, guarantees and other things that can build trust in the eyes of the visitor.

## Online Chat

 High Impact

Work with your web designer to implement a chat script like [Olark.com](https://www.olark.com/).

## Secondary Call To Actions (CTA)

 Medium Impact

Implement complementary calls to action to engage your visitors and increase the chances of them taking some kind of action before they leave your landing page.

## Exit Popups

 Medium Impact

Talk to your copywriter and marketing team about what sort of "last chance" offer would work best for your audience. This may take the form of:

- A discount coupon.
- A free product offer
- A free service offer such as a quick consult.

...or a similar offer. This offer should be even better than the one offered on the landing page, as it may be your last chance to convert the visitor.

Then talk to your web developer about how to install and configure an exit popup script on your landing page.

## Thank You Page Optimization

---

### Surprise Freebie

 Medium Impact

Determine what type of freebie would both delight your lead or customer. Discuss with your sales team whether to make this a no-strings-attached freebie, or to require the lead to fill in a form (which can be used to segment the mailing list), call a telephone number, or take a similar action.

## Get Feedback / Survey

 Medium Impact

Talk to your marketing team about what type of information to include on your survey. Then talk to your web developer about how to integrate a survey or questionnaire on your thank-you page to easily collect visitor responses.

## Tracking & Reporting

---

### Heat Maps / Engagement Tracking

 High Impact

Use a tool like HotJar.com to start tracking how users are interacting with your landing pages.

### Google / Bing Analytics Goals

 High Impact

If you're using Analytics, work with your developer or digital marketer to setup goals to measure key aspects of your online business. You can even set up a "Goal Funnels," which is the path to your goal. That way, you can see what part of the process isn't converting visitors.

### Facebook(FB) Pixel

 Medium Impact

Ask your web designer to add your FB pixel onto your landing page. If you use WordPress you can use a plugin like [PixelYourSite](#) or [PixelCat](#). If you've added the FB pixel to your landing page you can troubleshoot the configuration using the [Facebook Pixel Helper Extension](#).

## Legal

---

### Cookie Policy

 Medium Impact

Consult with an attorney to create a cookie policy or use resources provided by services like <https://termsfeed.com/> and <https://www.iubenda.com/en>. We always recommend you consult with a lawyer whichever direction you take.

Then be sure a link to this policy appears at the bottom of each page of your landing page.

John

We appreciate you taking the time to review this audit. Your website's design, content and optimization not only helps your site rank better but it increases your chances of converting your visitors into leads and customers. The actionable information in this audit when followed can help you rank better than the competition, get more traffic and generate more business.
